

Dear Students!

Welcome to Physics II.

All necessary information about the course can be found in your Blackboard (BB) (go to <https://www.uml.edu/IT/Services/Academic-Technology/Learning-Management-System.aspx> and choose “On-Campus Course Login”, then find a Physics II course). It will become available after August 29. For now, you can get information about the course in my website <https://sites.uml.edu/andriy-danylov/teaching/physics-ii/>

Attendance is required in all lectures and will be checked using Poll Everywhere app. You need to download that app and login using your university credentials. Conceptual questions will be asked during our Physics II lectures and your responses will be recorded using “Poll Everywhere” app. Your responses (correct or wrong) will be used to check your lecture attendance.

You will need to register at *Mastering Physics (MP)* to do your online HW. HW will usually be due Sunday midnight. Registration MUST be done through BB which is already available. Just click on any link inside the Mastering Physics HW folder and you will be guided. You need to have an access code, which comes with a textbook, or you can buy it with a credit card during your registration. If you used an access code in the previous semester, you should be able to use it now.

Course name: *PHYS1440F22*

Course ID: *danylov87549*

---

Information about Physics II labs can also be found in Blackboard. Go to a folder “Lab Information”

There will be no lab classes in the first week of the semester. Lab rooms will be assigned for each week and posted in our Blackboard and will be posted in the display opposite Olney 111 and on the lab room doors.
